## **REASONS FOR ALLOWANCE**

### ***Allowable Subject Matter***

1. Claims 1-6, 8-15, and 17-25 are allowed.
2. The following is a statement of reasons for the indication of allowable subject matter:

The examiner agrees with the applicants arguments, that the prior art of record cited in the last office action, teaches in a portable communication device having a main processor that remains in low power mode while the having a digital signal processor (DSP) in regular mode for scanning channels for a acceptable channel for communication, and the DSP waking up the main processor in to regular power mode, and the DSP notifying the main processor of an identified channel acceptable for wireless communication. However the references fail to teach, that the DSP is placed in low power mode between each scanning interval during the process.

Therefore, claims 1-6, 8-15, and 17-25 are deemed allowed.

### ***Conclusion***
